

PAMANTASAN NG LUNGSOD NG MAYNILA
(University of the City of Manila)
Intramuros, Manila

REQUEST FOR PRICE QUOTATION

Date: OCT 22 2018
RFP No.: 101918-390

Company Name: _____

Address: _____

TIN: _____

Business Permit No.: _____

PhilGEPS Cert. No.: _____

Please quote your best offer for the item/s described below, subject to the Terms and Conditions provided at the back portion of this request for quotation. Submit your quotation duly signed by you or your duly authorized representative not later than OCT 30 2018

Open quotations may be submitted, manually or through facsimile or email at the address and contact number indicated below.

Atty. MAY ANGELI M. ESTOLAS
Acting Chief, Procurement Office

After having carefully read and accepted the Terms and Conditions, I/We submit our quotation/s for the item/s as follows:

the item/s as follows:				OFFER				
Item Description	Qty.	Unit of Issue	Approved Budget for the Contract (ABC)	Price (Inclusive of Tax)		Compliance with Technical Specifications (please check)		Remarks
				Unit Price	Total Price	Yes	No	
Electrical Audit including Thermoscanning Services 1.0 Project Description: The Pamantasan ng Lungsod ng Maynila will engage an auditor with at least five (5) years' experience in the field of electrical audit, assessment&investigation to evaluate the existing electric power system of PLM. 2.0 Objective/s of the Project: 2.1 To perform the necessary audit, assessment and investigation of the existingcondition of PLM's electric power system; 2.2 To perform electrical evaluation and determine the most suitable and economical rehabilitation solution in	1	lot	1,000,000.00					

Gen. Luna cor. Muralla Sts., Intramuros, Manila

accordance with the latest Philippine Electrical Code / Standards, National Building Code & Fire Code.

3.0 Preliminary Investigations:

For the past several years, the PLM's power system has not been enhanced and modernized, it is now prone to electrical hazards like overloading, insulation breakdown and even fire hazard. Taking into consideration the existing electrical load consumption and balancing, as a result of additional office equipment/appliances such as computers & air-conditioning units, PLM's electrical loading and cabling system need to be assessed, for the safety of its personnel and property.

Observation:

3.1 Old electrical equipment such as panel boards and circuit breakers;

3.2 Brittleness of electrical wires and cables that could probably affect not only the power supply of every building but also the everyday work and performance of the personnel; and

3.3 Lack of safety electrical devices and equipment such as lightning arrester, grounding system, tagging, etc.

To address the above-mentioned defects, the Pamantasan ng Lungsod ng Maynila is planning to rehabilitate the existing Electric Power System. The objective of the rehabilitation is to ensure the life safety of its personnel and continuity of its business. In line with this, the Pamantasan ng Lungsod ng

containing the softcopy of the drawings in Auto-cad format.

6.0 List of Activities:

Electric Power System Audit

6.1. Facilities Equipment to be Measured and/or Analyzed:

A. Visual Inspection

A.1. Wiring Installation Methods

A.2. Hazard Location Assessment

A.3. Industrial Equipment Inspection

A.4. Panel boards, utility boxes

B. Insulation Resistance Test on Panels

B.1. Insulation level of cables

B.2. Assessment of insulation on the connected load

C. Power Quality Assessment on Main Panels

C.1. Energy (KWHr) and Power Assessment

C.2. Voltage and Current Imbalances

D. Thermal Scanning

D.1. Panel boards

E. Grounding Assessment

E.1. Leakage Current Measurement

E.2. Ohmic values for every grounding electrodes

E.3. Bonding Assessment

E.4. Grounding wire assessment

7.0 Minimum expertise and qualification of Professional and Technical Staff to handle the project:

7.1 Principal or Managing Officer

Should be a Professional Electrical Engineer with experience in electrical engineering works and design.

7.2 Electrical Engineer / Project – In-Charge
Should be a Registered Electrical Engineer with experience in electrical engineering works and design analysis.

7.3 Master Electrician
Should be a Registered Master Electrician with experience in electrical works.

7.4 Certified Safety Officer
Must be a Certified Safety Officer with at least five (5) years of experience as Safety Officer.

7.5 CAD Operators
Minimum of 2 persons to support the required schedule of drawing production.

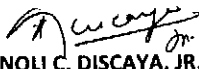

8.0 Minimum Eligibility

With at least five (5) years experience
PCAB License
PHILGEPS Member

9.0 Contract Duration:

Project Duration: 120 calendar days

This is to certify that I personally conducted the canvass and that the data herein are true and correct.
