<p><b>KEY FEATURES</b></p> <ul style="list-style-type: none"> <li>• <b>No time wasted:</b> Data connection procedures are straight forward</li> <li>• <b>No Compromise:</b> Connect with all ODBC, JDBX, or OLE DB and SAP data sources</li> <li>• <b>No data leaks:</b> Access the trusted data you are allowed to leverage</li> <li>• <b>No hidden data:</b> Navigate to the lowest level of data granularity</li> <li>• <b>No show-stopper:</b> Create the specific data view need for business</li> <li>• <b>No missed insights:</b> Identify changes and patterns in data</li> <li>• <b>No formatting limitation:</b> Create pixel-perfect multi-lingual documents</li> <li>• <b>No business limitation:</b> Cover all small to medium sized business reporting needs</li> <li>• <b>No report type left behind:</b> Create reports in rpt, pdf, spreadsheet, or html format</li> </ul> <p><b>Intuitive design environment:</b> Quickly design elegant business reports using a "what you see is what you get" (WYSIWYG) layout that offers popular design, integration and deployment options.</p> <ul style="list-style-type: none"> <li>• Use intuitive design tools to create the precise report layouts you need</li> <li>• Reduce time spent on report formatting with templates and wizards</li> <li>• Set parameter values and get results without refreshing data</li> <li>• Explore results interactively with on-report sorting and filtering</li> <li>• Set sorting and formatting to match local customs</li> </ul>											
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	--	--	--	--	--	--	--	--	--	--

<b>Design Acceleration Features:</b> Speed up report design using features such as global formula search, duplicate formula, duplicate running total, a "find-in-field" explorer and more: <ul style="list-style-type: none"> <li>• Automatically create hyperlinks with the hyperlink wizard</li> <li>• Instantly generate barcodes with a "turn to barcode" function</li> <li>• Set report parameters and apply values from a single, easy-to-use parameter pane</li> </ul> <b>Powerful data mash-ups</b> Enhance report designs with powerful, integrated components – such as dynamic charts, Adobe Flash, Adobe Flex and SAP Crystal Dashboard Design data visualisations. <ul style="list-style-type: none"> <li>• Convey information in a more compelling way with enhanced designer features</li> <li>• Add dynamic charts, graphics and videos to reports using Adobe Flash</li> <li>• Visualise what-if scenarios with SAP Crystal Dashboard Design integration</li> <li>• Execute business decisions within reports by embedding Adobe Flex</li> </ul>								
<b>Software for Transcribing Speeches</b>	1	unit	10,000.00					
<b>Branded and Brand New Layouting and Photo Editing Software</b> <b>Academic License Version, if applicable</b> <b>DESCRIPTION:</b> The world's most advanced digital imaging software, used by photographers, designers, web professionals, and video professionals. The app gives you the utmost power and creative control for 2D and 3D image manipulation and compositing, video editing, and image analysis.	1	unit	50,000.00					

<p><b>KEY FEATURES</b></p> <p><b>Better brush organization:</b> Organize and save brushes in the order. Drag and drop to reorder, create folders and subfolders, scale the brush stroke preview, toggle new view modes, and save brush presets with opacity, flow, blend mode, and color.</p> <p><b>Access to Lightroom Photos:</b> Get your Lightroom CC photos from the cloud right inside the software via search or the Start screen. With deeper integration between all the Adobe Creative Cloud photography desktop and mobile apps, all your photos are synced and accessible everywhere.</p> <p><b>Variable fonts:</b> With new font technology from Adobe, Apple, Google, and Microsoft, you can define variations within each supported font for weight, height, slant, and more.</p> <p><b>Curvature Pen tool:</b> Create paths more quickly, intuitively, and precisely. Push and pull segments directly instead of having to modify Bezier handles, similar to the Curvature tool in Adobe Illustrator CC. Simply double-click to switch between point types.</p> <p><b>Custom path color and width:</b> Improve the look and feel of paths. Choose the color and line thickness to make them easier to see.</p> <p><b>Group Layer Arranging:</b> Copy and paste multiple layers in groups, keeping the same order and location instead of having to drag them to reorder. Copy layers onto your clipboard and paste them at the desired specific spot in your panel.</p> <p><b>Paste as Plain Text:</b> Can paste text without the styling. No need to spend the time reformatting text after pasting.</p>
